Art Unit: 2816

1. The amendment filed on 9/22/06 has been received and entered in the case.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claims 1, 2, 6-11, 13-15, 18 and 19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is misdescriptive, and therefore indefinite, to recite that the control voltage applied to the common node of FETs 42 and 46 (in instant Fig.3), is continuously applied thereto, i.e., this control voltage switches between high and low logic levels in order to switch on the series FET 42 (and switch off the shunt FET 46) or vice-versa.

4. Claims 1, 2, 6-11, 13-15, 18 and 19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sasabata et al in view of Kawai.

See paragraph three of the previous office action mailed on 6/20/06 for the details of this rejection. As to the new limitation that the control voltage applied to the common node

Art Unit: 2816

of FETs 42 and 46 (in instant Fig.3), is continuously applied thereto, this limitation is incorrect (i.e., misdescriptive) and therefore cannot be relied upon to distinguish over the above-noted combination. To the extent the control voltage is "continuously coupled" to the gate of FET 42/drain of FET 46 in the instant invention, so too is it continuously coupled to the common node in the Fig. 5 circuit of Sasabata et al as modified with the teachings of Kawai.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 2816

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kenneth B. Wells whose telephone number is (571)272-1757. The examiner can normally be reached on Monday through Friday from 8:30am to 5:00pm.
